## FARRELL BLAZES WAY FOR EARLY SCORERS OF AMERICAN TEAM

### HUGE DEFICIT WILL FACE TREASURY FOR NEXT FISCAL YEAR

Depression Blamed By Budget Director For Shortage

WASHINGTON, June 3.—Official figures estimating the deficit which the national government faces at the outset of a new fiscal year beginning next month at \$900,000,000 to \$950,000,000 today terminated speculation which had estimated the deficit from half a billion to a billion dollars.

Coming in the form of an official announcement from the budget director, the new figures were issued at the White House, and ascribed the deficit to many causes, the economic depression prominent among them.

The estimates came at a time when President Hoover was hard at work with his department heads in an effort to trim expenditures for the next year. Mr. Hoover was told just before the budget figures were received the agriculture department would be able to effect a \$20,000,000 savings through economy program next year, and that about \$11,000,000 had been saved during the past year.

The President plans to take heads of the navy department down to his Rapidan River, Va., camp over the week-end to discuss the possibilities of saving money in that department.

Figures on the deficit, issued at the White House, were contained in the following statement:

"The deficit is principally due to a falling off in receipts of the treasury, from taxes and other sources caused by the depression which will apparently be about \$340,000,000 below the fiscal year ended June 30, 1930. Added to this is the additional burden of about \$50,000,000 fall in postal receipts.

"There have also been large increases in expenditures for construction work and agriculture relief and for veterans services amounting to about \$540,000,000 above that of the last fiscal year."

### YOUTH SHOOTS MAN; INVESTIGATE CASE

NEWARK, O., June 3.—Although he said the shot was intended only to "frighten" the man, whom he believed to be a prowler, youthful Leonard Ramsey, 20, was held in the city jail here today when authorities investigated the fatal shooting of Elmon Shaw, Spanish War veteran and father of three children.

Police said Ramsey admitted he only wanted to frighten Shaw. The boy's mother had been annoyed by prowlers recently, Ramsey said, and she had asked that he stay at home to protect her.

Ramsey, according to police, said he ordered Shaw to stop after he had rapped three times on the door of the Ramsey home. Shaw, however, started to walk away, after which Ramsey shot at him, fatally wounding him in the chest, police say Ramsey told them.

### BRIDGE FALLS AND TEN DROWN

BORDEAUX, France, June 3.—Ten persons were believed drowned when a new suspension bridge at St. Denis De Piles collapsed today during a test.

The collapse occurred when five sand-laden trucks were sent across the bridge to test its strength.

The victims were believed to include the chief engineer of the gironde department.

### RECEIPTS DECLINE

Receipts at the Xenia Post Office during May were slightly lower than for the same month last year, the decrease amounting to \$27,05, according to the monthly financial statement of Postmaster C. S. Frazer. Revenue for May, 1931 amounted to \$3,219.03 as compared with receipts totalling \$3,476.08 for the corresponding month in 1930, the report shows.

REVENGE IS BLAMED

NEW YORK, June 3.—"Revenge lies behind this crime," said Police Commissioner Edward P. Mulroney regarding the mystery murder of Dr. George Edward Deely, 58, Brooklyn specialist. A Filipino suspect is being questioned.

### Governors From Many States Gather To Exchange Views

A slashing attack on the power monopolies by Gov. Gifford Pinchot of Pennsylvania shattered the placid serenity of the twenty-third annual conference of governors as executives from twenty-four states gathered at French Lick, Ind. Photo shows a group of governors, seated left to right, are Pinchot; W. M. Brucker, Michigan; Albert C.

Ritchie, Maryland; I. C. Blackwood, South Carolina; H. H. Woodring, Kansas; H. G. Leslie, Indiana; Henry S. Caulfield, Missouri; George White, Ohio; Geo.

H. Dern, Utah, and L. G. Hardman, Georgia. Governor Franklin D. Roosevelt of New York, arriving later, attracted considerable attention.

"Sugar-Coated Knowledge" Attacked By Speaker At Seventy-Second Graduation Exercises Held Here Tuesday

"Guard well your health you young men and women, for in it you have an asset that may make your fortune. Health gives tone and vigor to every man who would do each day's work efficiently. You need a strong body and good health is essential if you are to achieve renown in the higher spheres of life. No man is a worm unless he lives like one."

"Away with that aesthetic theory that a weak body is indicative of a strong soul."

Dr. Acheson told the graduates to "keep up the practice of taking vacations when you get out of college" because "that is when you will need them more than you do now," although, he added, "that is probably what you are looking for just now."

Other necessary assets are a worthy character, a steadfast purpose in life and a trained mind, the speaker declared.

"Youth is a priceless treasure. You graduates stand on the threshold of life's adventure. Youth sees no dangers, anticipates no defeats. Scorns Marriage; Coming Home Where People Are Human She Says

L' HAVRE, France, June 3.—"I'm going back to New York where people are still human."

So Texas Guinan, New York Night Club Queen, bitterly turned her back today on stern French officials and offers of marriage.

Texas and her gang re-embarked on the S. S. Paris today to return home, thus ending their disastrous attempt to enter France.

The blonde hostess, who was given a big hand—a hailing re-hand—by the French government, packed her trunks and boarded the steamer at the behest of immigration officials, who refused to admit her and her troupe last week because their working contracts were not approved.

"I don't know who started that crazy story that I'd marry just to see England," she snorted, referring to rumors that she had accepted the offer of a young Englishman to marry her.

"I've been married before for better reasons than that—and regretted it," she said.

Funeral Rites For Donald Stephens To Be Thursday

Funeral services for Donald Stephens, 19, son of Mr. and Mrs. John Stephens, Whiteman and Hivling Sts., slain in a gun battle in which two persons were killed at Wheelwright, Ky., last Saturday night, will be held at the R. M. Neel funeral home here at 10 o'clock Thursday morning. Burial will be made in Woodland Cemetery.

Friends may call at the Stephens home any time after 4 o'clock Wednesday afternoon.

The father, who went to Kentucky and brought his son's body home Tuesday, learned, he said, that the youth was an innocent bystander in the shooting affray.

When the firing broke out Stephens was seated on a rock and before he could duck behind the boulder he was shot in the back, allegedly by Monroe "Red" Hall, a deputy sheriff.

At the time of the shooting, Stephens was in company with Fred Newsome and his two sons, George and John, and the shots were exchanged when Posey Scott, a constable and the deputy sheriff attempted to question Newsome.

The constable is said to have been killed outright by Newsome.

Pending an investigation of the shooting affray, the deputy sheriff who shot Stephens is under arrest with Newsome and his two sons.

Dr. Acheson told the graduates to "keep up the practice of taking vacations when you get out of college" because "that is when you will need them more than you do now," although, he added, "that is probably what you are looking for just now."

TWO END LIVES

JACKSON, O., June 3.—Two suicides within six hours were recorded here today following the death of Clinton W. Lewis, 55, from self-inflicted bullet wounds, according to authorities. Six hours prior to Lewis' suicide, Charles W. Nelson, retired insurance agent, took his life.

SAFETY LANE TO TEST MOTOR CAR DEVICES TO BE CONDUCTED HERE

One of the most constructive campaigns ever staged in this vicinity for the prevention of motor vehicle accidents will be conducted here for three days beginning Thursday.

Safety Lane, as it is termed, includes a test of brakes, headlights, horn, mirror and windshield wiper, wheel alignment and steering wheel play, making use of the latest equipment scientifically designed for this purpose. This inspection will be free to the public and every motor car owner is invited to have his car checked. On E. Church St. in front of Central High School.

This safety program is sponsored by city officials, the police department, the Greene Co.

### DROUGHT STATES IN 1930 REPORT AMPLE MOISTURE FOR YEAR

Meteorologist Finds Conditions Much Improved So Far

WASHINGTON, June 3.—The states hit hardest by last year's drought, today reported good crop conditions to the U. S. weather bureau with officials hopeful—although not at all certain—the country will be spared another long dry spell.

Summer has arrived, meteorologically speaking, with rainfall above normal in the Middle Atlantic states and Ohio valley, regions hit especially hard by last year's drought.

The South, too, for the most part receives enough rainfall to carry crops along in good shape, although most southern states experience a deficiency in rainfall in the spring months of March, April and May.

"Crazy quilt" weather, which characterized the worst drought in history, is still in evidence. But a comparison of rainfall last year, this year and the normal, made by the U. S. Weather Bureau, shows conditions much improved in 1931.

Two dry sections are causing considerable worry to weather observers, although they are hopeful the situation will be remedied. Very dry weather is reported in some sections of the northern great plains states, including the Dakotas and Montana, and in interior Washington and Oregon.

The rainfall comparison for the spring months shows that Cincinnati, in the drought belt last year, has had normal rainfall. Little Rock, in the center of the drought area, shows slightly less rain than during the same period last year. The test for Arkansas is to come.

Rainfall in St. Paul is below last year and but 60 per cent of normal. At Miles City, Mont., rainfall for the last three months is but one-third normal.

A comparison of rainfall for March, April and May of 1930 and 1931 and the percentage of this year's rainfall to normal:

Columbus, O., 1930, 44, 8.7, 87 per cent; Cincinnati, 1930, 4.9, 1931, 10.4, just normal; Parkersburg, W. Va., 1930, 6.3, 1931, 11.8, 117 per cent; Pittsburgh, 1930, 7.4, 1931, 11.6, 128 per cent.

Although crops in the drought area are good, difficulty is still reported in getting a good domestic water supply.

EPSON DOWNS, Eng., June 3.—American hopes of winning the English Derby were dashed again today when J. A. De-War's Cameronian, the outstanding favorite, romped home the winner in the 15th running of the great classic.

Orpen was second and Sandwith third.

The victory of Cameronian dropped a fortune of \$150,000 in the lap of Joseph Kennedy, Boston, Mass.

William Coyle, Cincinnati, an elevator starter in the Keith Bldg., held a ticket on Sandwith and as a result profits to the extent of \$50,000.

SENTENCED TO LIFE

CANTON, June 3.—Pleading guilty to manslaughter, Stanley Cassidy, 32, was sentenced to life in the penitentiary yesterday for the murder of his neighbor, Chauncy Bates.

NEW POLICEMAN CATCHES BANDIT

CLEVELAND, June 3.—Patrolman John Farrell, one of the newest members of the Cleveland police department, today captured a bandit who had robbed an east side delicatessen store, after a wild automobile chase, police reported.

Commanding a passing automobile after he was informed of the robbery by two customers, Farrell chased the bandit who fled in a taxicab after robbing the store and became unconsciousness Abraham Sachs, store manager. Loot obtained was \$25, Sachs said.

DAYTON, June 3.—Theodore Potts, 42, father of seven children, died in a hospital here yesterday afternoon from injuries sustained Sunday when a bomb exploded in his hands. Potts was lighting the bomb to amuse his children. The blast tore off his left hand, burned him severely and threw him violently to the ground, causing a fractured skull.

REVENGE IS BLAMED

TIFFIN, June 3.—The biggest gas well in the field south of Tiffin was struck yesterday with an estimated capacity of 2,000,000 cubic feet per day. It was shut in temporarily.

HILLSBORO, O., June 3.—Allegedly held under bond for allegedly falsifying entries and reports, C. C. Redkey, today faced a second charge—embezzlement.

A warrant charging Redkey with the misappropriation of funds and credits of the bank to the extent of \$61,775 was issued here by J. C. Van Pelt, a representative of the state banking department, who began an investigation after the Leesburg bank was closed.

Stocks and bonds belonging to several depositors and \$14,000 in bank bonds have been involved in the alleged embezzlement.

DOCTOR ACCUSED

DAYTON, June 3.—Dr. E. O. Willoughby, former Montgomery County coroner, faces an assault and battery charge as the result of an attack in his office on Mrs. Barbara Newberger, 31, who had gone to the office to protest about a bill for services. Although the woman is less than five feet tall and weighs only seventy pounds, the physician is said to have come enraged and knocked her down.

We'll admit right here that this doesn't look very much like Paris—and yet it is and it isn't. The scene is one transplanted to the capital of France for the French Colonial Exposition from faraway Annam a French protectorate in Indo-China. The

pretty Annamese women walking from the buildings in the background after an inspection tour further add to the illusion that this scene is thousands of miles away from the boulevards of Gay Paree.

## BROADWAY LURES HULA HULA GIRL

From the most remote of the South Sea islands comes Reri, a full-blooded native, to make her Follies debut. Florenz Ziegfeld saw Reri dance in a movie shown at his home and immediately tried to get into touch with her. He finally succeeded in reaching her through a white man who runs a general store on the Island of Bora Bora. Reri, who will arrive in New York in the near future, has a repertoire of 20 to 30 native dances.

## Governor Faces Ouster

Articles of impeachment against Governor Henry H. Horton, of Tennessee (top), are reported ready for presentation to the Legislature at Nashville. The ouster of the Governor, the first case of its sort in the history of the State, is sought due to charges that he had been under the influence of Col. Luke Lea (left), newspaper publisher and politician and a director of several banks, which failed with \$7,000,000 in State deposits. Congressman Edward H. Crump, Memphis political leader (right), is directing the campaign to oust the Governor.

## Heirs to Baker Fortune

George F. Baker, noted financier, divided up the bulk of his \$75,000,000 estate, which was much smaller than generally anticipated, among his son, George F. Baker, Jr. (lower left), who received approximately \$60,000,000; his daughter, Mrs. William Goadby Loew (right), who was willed \$5,000,000, and Florence J. Loew (upper left), a granddaughter, who was left the famous Baker estate at Tuxedo, N. Y. Another daughter was willed \$5,000,000. Although the famous banker's fortune had been estimated as high as \$500,000,000, the shrinkage is explained by the fact that he transferred millions away to his son and philanthropies previous to his death.

## SCOUT OFFICIAL IS SUED FOR DIVORCE; OTHER COURT NEWS

Homer T. Gratz, former Xenian, now employed as a Boy Scout executive with headquarters in Zanesville, O., has been sued for divorce in Common Pleas Court by Deane C. Gratz who seeks temporary and permanent alimony, attorney fees and custody of their child, Barbara, 4.

Gratz, formerly employed as field executive of Tecumseh Council, Boy Scout area embracing Greene, Clark, Clinton and Champaign Counties, is charged by his wife with having neglected her for the society of other women.

The plaintiff claims her husband left his home in Xenia last October 1, went to Michigan for a short time and later obtained a good position in Zanesville. However, he won't permit her to go to Zanesville and since leaving home last fall has returned to Xenia only once, she asserts.

The couple was married April 30, 1926.

### WINS DIVORCE

Daisy Talbott, Jamestown, has been awarded a divorce from George Talbott in Common Pleas Court on grounds of cruelty. Restoration of the plaintiff to her maiden name of Daisey Lackey was also authorized by the court.

### SALES CONFIRMED

Sale of property to the plaintiff has been confirmed by the court in the case of the Home Building and Savings Co. against N. D. Shanaan and others in Common Pleas Court. The purchase price was \$3,100.

In the case of the Virginia Joint Stock Land Bank, Charleston, W. Va., against C. S. Cummings and Elba Cummings and others, sale of property to the plaintiff, first lien holder, for \$6,000, has been approved. The purchase price is less than the plaintiff's claim.

### JUDGMENTS GIVEN

John T. Harbine, Jr., has been awarded three note judgments against Wilberforce University in Common Pleas Court, the amounts being \$213.83, \$276.15 and \$310.25. Note judgment amounting to \$241.15 has been awarded in favor of the J. H. and F. A. Sells Co. against George W. Daffern.

The Norwood Sash and Door Manufacturing Co. has won a judgment for \$40 against Patti Aiston.

### NEW TRIAL DENIED

Application of the plaintiff for a new trial has been denied in the alienation of affections suit of Donna Harvey against Clark Henrie in Common Pleas Court.

### SUSTAIN DEMURRER

Demurral filed by The Glenns Falls Indemnity Co. to the petition of John Greene against O. H. Cornwell has been sustained in Common Pleas Court. The surety company is a co-defendant in the action.

### DISMISS CASE

Having been settled, the case of Harry C. Graves against Mithas Schirard has been ordered dismissed in Common Pleas Court.

### ESTATES APPRAISED

Gross and net values placed on four estates in estimates on file in Probate Court are as follows:

Mary C. Jacoby estate: gross value, \$18,364.32, including personal property worth \$5,614.32 and real estate valued at \$12,750; debts, \$6,180.12; cost of administration, \$984.57; net value, \$11,199.63.

John G. Hornick estate: gross value, \$11,346.97; debts and cost of administration, \$10,660.04; net value, \$686.93.

Margaret Rickett estate: gross value, \$1,430.64, including personal property valued at \$1,230.64 and real estate worth \$200; debts, \$562.50; cost of administration, \$163.98; net value, \$704.16.

Mary A. Leveck estate: gross value, \$692.98; debts and cost of administration, \$27.35; net value, \$665.63.

### EXECUTORS NAMED

Laurence E. Evans and C. L. Darlington have been appointed joint executors of the estate of Melville F. Barrows, late of Xenia, with bond of \$5,000, in Probate Court. J. Thro Charters, Ralph O. Wead and T. J. Kennedy have been named appraisers.

Adah G. Rowe has been named executrix of the estate of Wesley H. Rose, deceased, without bond. George Eckerle and Al Tresise were appointed appraisers.

Sidney S. King, Sr., has been appointed executor of the estate of Mary Ellen Phillips, late of Yellow Springs, bond being dispensed with under terms of the will.

## BIBLE THOUGHT FOR TODAY

Cursed be he that taketh reward to slay an innocent person. And all the people shall say Amen.—Deuteronomy, xxvii, 25.

## SUITABLE SELECTION

The selection of Valley Forge as the site for his recent Memorial Day address was a happy thought on Mr. Hoover's part. There is no other spot in the country that holds quite the place in our national consciousness than Valley Forge does. Abraham Lincoln consecrated the field of Gettysburg, where a major crisis in our history was passed; but the inarticulate suffering of Washington's lagged levies during the winter of 1777-78 ennobled Valley Forge more definitely and permanently than human words could hope to.

Valley Forge stands in the American mind for determination and confidence. The fate of a nation still unborn hung on the spirit of that winter camp. Another crisis now is being faced, although by no means one so critical. The same spirit of confidence in the future and determination never to say die, which won out then, will win out now. The comparison which Mr. Hoover drew between the trials of 1777-78 and those of 1929-31 was not strained. They have in their implications much in common. The psychological strategy of attack is the same in both cases. As Mr. Hoover so aptly said:

"Sirens still sing the song of the easy way for the moment of difficulty, but the common sense of the common man, the inherited tradition of an independent and self-reliant race, the historical memory of Americans who glory in Valley Forge even as they glory in Yorktown—all these tell us the truth our ancestors fought and suffered for, the truth which echoes upward from this soil of blood and tears, that the way to the nation's greatness is the path of self-reliance, independence and steadfastness in times of trial and stress. Valley Forge met such a challenge to steadfastness in times and terms of war. Our test is to meet this challenge in times and terms of peace. It is the same challenge."

The mass mind is easily stampeded. When things begin to slip it is natural to fear the worst. This has happened with every business depression in our history—and with every depression in the history of every other country. When it is all over, we enjoy the grand and glorious feeling that comes of reflecting how unreasonable our pessimistic apprehensions were; but for the time being giving away to those apprehensions merely prolongs the agony. What the country needs most today is a large injection of the spirit which conquered the darkest hours of travail that preceded its birth. A nation of 123,000,000 people ought to be able to summon to its aid as much self-reliance and intelligent confidence in the future, as a nation of less than 4,000,000 people did a century and a half ago.

## AIR MANEUVERS

The air maneuvers recently carried out by the army over eastern cities were made the excuse for one of the most extensive pacifist demonstrations in the history of the country. There were pacifist parades in the cities the planes were mobilized to "defend." Anti-defense oratory flowed unconfined. An eighty-one-year-old woman marched in New York alongside of an unfrocked clergyman carrying a placard: "The way of Jesus and Gandhi is stronger than guns." She wore a blue sash which she interpreted as "true blue." The president or a labor college declared that it was "an absurdity and crime to be preparing for another war." A liberal minister of the gospel denounced the maneuvers as designed to glorify war and take the people's off unemployment!

And so it went. The very people who profess to be so afraid that this country will get a reputation abroad of being militaristically inclined did their best to advertise and distort an incident of army training that in Europe would have passed unnoticed. The air maneuvers were designed for two purposes. One was to give the flyers participating in them experience in large scale operations. The other purpose was to stimulate public interest in the importance of air defense. The maneuvers were financed inside of the regular budget. They came within the normal duties of a defensive army. All that was denied and distorted and misrepresented by peace-loving brethren, who seem incapable of understanding that they endanger the cause to which they pay lip service, when they falsify and then magnify the significance of an incident of that sort.

Apparently this misguided element has in mind to bring what pressure it can on the seventy-second congress to seriously impair what little national defense the country has. Should the Democrats organize the house, Congressman Ross Collins, a bitter enemy of the war department, would likely find himself in a position to give aid and comfort to those patriots who apparently think that the United States should throw away its defensive weapons, while Europe remains armed to the teeth. The harm good men do has no more fertile soil in which to germinate and run riot than pacifism.

## AS TO KINGS

If the king business, as conducted in some quarters, needed further proof of its contemptibility, the royal situation in Rumania would provide it. Carol, a philandering puppet, was recalled from exile and set on the Rumanian throne; and then he proceeded to use his position to heap more humiliation on his queen and lawful wife than he had already subjected her to in his private capacity. Then he divorced her. She must now leave Rumania—and abandon her son in order that he in turn may ornament the throne his father has disgraced.

The brutal inhumanity of it all is the essence of the tragedy. Similar domestic troubles occur in less exalted ranks of life. They become spectacular when they are the products of a system of government which a nation sets up and bows down and does obeisance to. There is no reason why a king should not be a gentleman, a loyal husband and devoted father—as some kings are; but the system is such that it permits those who are otherwise disposed to get away with the brutality that has marked Carol's treatment of Queen Helen since she left out to her titan-haired rival for a heart one would think was hardly worth having.

It is announced by a "cat psychologist" that felines do not catch rats "naturally," but when young are taught by their mothers to do. Yes, and young seals are taught to swim by their parents, because if they weren't they would drown, and maybe ducks would have to learn, too, if they were able to sink. But what difference does it all make?

If the pacifists would turn only their own cheeks to the enemy for a swat it wouldn't be so bad. The trouble is they insist upon exposing other people's cheeks, too.

The good folk who became so agitated over the recent air maneuvers would do well to ponder General Smedley Butler's epigram: "Sons do not make wars—they end them."

The British have invented a three-color movie film which will not burn. Some system to that! It not only will prevent fire loss from film burns, but life loss from film house panics due to the burning of films.

## QUERY

A machine manufacturing company engaged in making heavy-hauling pulleys for shipment to teak and mahogany forests in Tasmania, received an order recently for heavy logging machinery from a Tasmanian concern. To the order was attached the query:

"How many elephant power in your largest pulley?"

## WHY HUSBANDS AGE

## WAZAMATA WITH JAVA?

Does old Doc. Burkhart say it's bad for you?

(A sneer should be inserted in this place.)

What does Doc Burkhart know about cawfee?

I don't care how long he's been rollin' pills for the family. I don't care what he did for Aunt Emma or Uncle Parker. Hell! never know as much as Doc John A. Killian, director of the department of bio-chemistry at the New York Post-Graduate Medical School and Hospital.

If Doc Killian wasn't a right smart feller, you don't think, do you, he'd be asked to speak at the third annual meeting of the American Gastroenterological Association?

Why, Doc Burkhart couldn't even pronounce the name of the association that Doc Killian spoke before.

What did Doc Killian say? I'll tell you what he said. He said that freshly roasted, percolated cawfee is not harmful to the digestive organs of the normal person.

Then, coffee taken at the end of the meal is found to be slightly more beneficial to the digestion.

Perkins, get me a pot of hot coffee—and step on it, please!

## CHEERS FOR CHURCHES

Twice as much time and money were spent in the motion picture theatres as in churches during 1930.

The number of churches still

greatly exceeds the number of motion picture houses, 232,000 be-

ing spread among 212 denomina-

tions, while the number of motion

picture houses last year was 21,

284.

Sunday motion pictures, base-

ball, golf, radio and motoring are

largely responsible for the falling

on the part of the church mem-

bership.

When you stop to think of the

odds the churches are facing in

this day and generation, you have

to doff your lid in acknowledgement

of the magnificence they're putting up.

## THE QUESTION BOX

Answers to questions on information and fact can be obtained by writing to Central Press Bureau, 1435 East Twelfth street, Cleveland, O., and enclosing a self-addressed, stamped envelope.

No answers will be given to mili-

tary, medical or legal questions,

nor will the estimated value of

old coins be given.

What happens when inaugural day, March 4, falls on Sunday?

When March 4 falls on Sunday, the president's inauguration is held on the following day. As a

matter of fact, this seldom

happens, as the date was chosen

by an expert who calculated that

it would fall on Sunday less fre-

quently than other days of that

period of the calendar.

## Earth-Shine

Tea Gardens in the U. S.

Is it possible to raise tea in the

United States?

The department of agriculture has

conducted several experiments in

raising tea in the southern

states which showed that climatic

conditions are satisfactory for tea

raising here. As an industry it

would be impractical, as Ameri-

cans cannot compete with the

Orientals in growing and curing

the tea.

Marriage in Spain

Is it true that in Spain persons

wishing to be married must fur-

nish a genealogy of their family?

No mention of this is made in

the laws of marriage for Spain.

It is possible that some of the

families of high social rank and

noble birth require a genealogy of

persons about to marry into their

family.

## WET AND DRY OPINIONS DON'T HARM SOLIDARITY OF PROGRESSIVE GROUP

CHARLES P. STEWART

WASHINGTON—Nothing is more significant of the solidarity of the progressive group in congress than the fashion in which, among themselves, members of the bloc are able to disregard wet-and-dry differences of opinion.

Try as their leaders may to ignore it, everyone is perfectly aware that both major parties are badly split on prohibition.

It is an understood thing on the part of the G. O. P. bosses that, as is expected, President Hoover runs again in 1932 as a dry, many wet Republicans will desert him, provided any wiser choice is offered to them.

Equally it is recognized by the Jeffersonian managers that, while Aunty Democracy seems almost certain to be represented by at least a moist candidate, a lot of dry Democrats will vote for his rival, as dryly as the wetter.

Consequently, can anyone doubt that the wet Senator La Follette, and his positively dripping wet progressive Wisconsin colleague, Senator Blaine, would balk for a minute if the progressives were to nominate the bone dry Governor Pinchot of Pennsylvania?

## ST. BRIGID OUTFIT PLAYS WELL AFIELD BUT HITS WEAKLY

Drops Both Ends Of Program By Close Scores

Well, you can't say that local softball teams are not giving the fans a run for their (we almost said money) these days.

Hardly a week goes by but what one of the favored teams gets an unashamed bump and the races in both leagues are getting tighter, day by day in every way.

The Nation League scramble has now developed into a three-cornered affair with the Lang Chevrolets back in first place again by a margin of a few percentage points over the Downtown Country Club, while the Red Wings are only one full game behind the Downtowners.

In the American League the Krippendorf team has a fairly substantial advantage, mainly because it has played and won more games than the other teams. But Central High and St. Brigid have each handed the defending champions a defeat and plenty of respectful consideration is due their chances.

Walter "Pinky" Wilson, Central High coach, who has been playing plenty of third base for the Down-towners since the season began, will no longer be available to the team. School is over and "Pinky" is returning to his home in New Concord to spend the greater part of the hot months. His loss will be felt keenly by the D. T. C. Club, which, numerically speaking, is hard enough up for players as it is.

Walter, as far as we know, has not definitely decided whether he will be back at Central High again next fall, but the coaching post is there for him if he wants it, and unless he gets a more flattering offer from somewhere else, the red-head will probably return for his fourth straight year as Buccaneer mentor. The students and local fans hope so, anyhow.

Thousands of fans from all parts of Ohio and adjoining states who witnessed the introduction in this state of the barrier system of starting harness horses at the four-day meeting held in Urbana last week, were said to have generally praised the barrier device patented by Steve Phillips, Xenia starter, who acted as starting judge in Urbana. Exceptionally fast heats were run and in one instance the trotting record to the track was broken. It would appear that the barrier has been tried and has not been found wanting.

Steve Savage, the 210-pound heavyweight Chicagoan, will test the wrestling ability of George Godfrey, the reformed boxer, in what would be an interesting match at the Forest Park stadium in Dayton Thursday night. Godfrey has been making it tough for the ear scramblers lately and Savage should be a first-rate opponent since he is listed as one of the ten best heavies in the game today. He was placed among the first five in the last rating of the National Boxing Association.

## RAY HENLEY WILL START SEASON AT GREENVILLE TRACK FRIDAY

Race followers in and around Xenia will be interested in knowing that Ray Henley, three-year-old 2:08, one of the greatest race horses ever to come out of Greene County, will make his first start at Greenville on Friday afternoon at the Greenville.

Joe Hagler, the local trainer, who has Ray Henley in charge, has shipped three horses he has had in training at the local track to Greenville for the second meeting of Ohio Short Ship Circuit, which has drawn leading stables from all sections of the country.

It is expected that a big following from this section will go to Greenville Friday afternoon to root for their favorite in the 14 class pace.

A big day of racing is promised for Friday afternoon, as there will be four big races. Besides the 14 class pace there will be a 14 class trot, a 20 class trot and a three-year-old pace, all of which will see big fields facing Starter Phillips at the barrier.

He will find plenty of opposition

## Poems that Live

### WHEN I HAVE FEARS

When I have fears that I may cease to be Before my pen has gleaned my teeming brain, Before high-piled books, in characterly Hold like rich garners the full-ripened grain; When I behold, upon the night's starred face, Huge cloudy symbols of a high romance, And I think that I may never live to trace Their shadows, with the magic hand of chance; And when I feel, fair creature of an hour! That I shall never look upon thee more, Never have relish in the fairy power Of unreflecting love!—then on shore

Of the wide world I stand alone, and think Till Love and Fame to nothing do sink.

—John Keats (1795-1821)

County Commissioners have entered into agreements with Bath Twp. trustees and the Fairfield village council for improving and paying one-half the cost of repairing a township road and two streets in Fairfield.

The Old Osborn Road, leading from the west corporation line of Fairfield to Finney's mills, a total distance of two miles, will be rebuilt and hard-surfaced with tar treatment. The tentative cost estimate for the project is \$2,800, with the township trustees agreeing to pay half the expense.

Commissioners have also agreed to improve Xenia St. west of Dayton on the corporation line in Fairfield, and also the Byron Road in the village, at a combined cost of \$965. The expense of the Xenia St. repair work is placed at \$345 and for the Byron Road improvement, \$640. The village council will pay half the cost of each improvement.

# The Theater

The battle against "sponsored" advertising on the screen, led by P. S. Harrison of Harrison's Reports, a motion picture reviewing service, has been won with the announcement that Paramount-Publix and Warner Bros. will abandon the practice.

Harrison had the co-operation of his to attend graduation of her daughter at Smith, and Miss Bennett was substituted. She was at one time one of the foremost actresses of the screen as well as the stage. Her most imposing triumph was in "The Sea Hawk" with the late Milton Sills. In recent years she has devoted herself to her home. She is the wife of Fred Niblo and the mother of three beautiful children, the youngest being two years old. Mae Clark has been given the part originally assigned to Rose Hobart. Ken Kouglass plays the boy and James Whale will direct the advertising propaganda in

## Storm Brewing Over Ban On Professor and Nurse

Refusal of Citizenship Papers to Pair Who Will Not Bear Arms in Time of War to Precipitate Battle in Congress on Laws

Refused citizenship by the United States Supreme Court by the close vote of 5 to 4, after the Federal Court of Appeals had granted them full citizen privileges in overruling two lower courts, Professor Douglas Clyde Mackintosh, of Yale University, and Miss Marie Averill Bland, New York nurse, Canadians, are the center of a controversy which Congress and President Hoover probably will be called upon to settle. While both Professor Mackintosh and Nurse Bland served during the World War, it was due to their disqualification to bear arms for the United States in the event of war that forced the highest U. S. tribunal to bar them as citizens. The educator said he would fight for America if the cause was just, while the nurse was definitely opposed to shouldering arms because of religious scruples. The latest victims of the alien naturalization law are shown above with Mme. Rosika Schwimmer, another prominent person denied citizenship because of her conscientious objections to war.

NEW YORK, June 3.—Always a mooted subject jammed full of dynamite with only the torch of public opinion ready to set it off, the question of granting or refusing citizenship to those aliens who will not swear to bear arms for the United States flares anew with the refusal of the Supreme Court to naturalize two Canadians who saw service during the World War.

The latest victims of the laws governing the admittance of aliens to citizenship are Professor Douglas Clyde Mackintosh, of Yale University, who served as a chaplain during the World War, and Miss Marie Averill Bland, a New York nurse, who administered to American troops at Brest in the wake of the world struggle.

Now congress, which falls heir to most of the squabbles of the land, will have to decide whether Professor Mackintosh and Miss Bland, together with other aliens who have definitely or partially refused to swear armed allegiance to the U. S. A., notably among them Mme. Rosika Schwimmer, conscientious objector to war, are to be deported or permitted to remain.

Spokesmen for the Friends Church, of which President Hoover is a member, and many bishops of

that of people without a country. They have forsaken Canada to make their homes in the United States. They have applied for citizenship, only to be refused. They may even be deported!

An interesting sidelight is the attitude of the American Legion. The veterans' organization is opposed, in principle, to granting the Yale professor and nurse citizenship because of their disqualification to bear arms for this country in the event of war. While Professor Mackintosh has expressed a willingness to shoulder arms and fight for the United States if the cause is just, Nurse Bland is definitely opposed to war due to religious scruples.

Powerful peace societies are bending every effort to amend the statutes governing naturalization so that discrimination will not be practiced against many worthy individuals who would make excellent citizens in time of peace or war.

## CHURCH BOY SCOUT TROOP REGISTERS FOR ITS FIFTH YEAR

Re-registration of Troop 45, Boy Scouts of America, sponsored by the First Lutheran Church, is being completed by Walter C. Jones, Scoutmaster. The troop is now entering its fifth year as one of the units of Tecumseh Council. J. F. Molitor will be Assistant Scoutmaster.

The new troop committee is being headed temporarily by the Rev. A. G. Lebold, pastor of the church and District Scout Commissioner for Greene County. Other members are: E. L. Blackburn, in charge of advancement; John Vandepool, treasurer; and George A. Fudge, in charge of the outdoor program for the boys.

The following boys are re-registered: Robert Friedman, James Phillips, Robert Foley, Elmer Schardt, Ralph Nichols, Robert Hunt, Kenneth Jones, and Kenneth Fisher. More than eight other boys are working on their Tenderfoot tests in preparation to register.

Preparations are now being made by the troop officials to take the Scouts to Wilmington Friday night to hear Paul Siple, Sea Scout who went with Admiral Byrd to the Arctic. The boys will meet at Scout headquarters, W. Main St., Friday at 7 p. m. where the transportation will be furnished by Geo. Fudge and John Vandepool.

Troop 45 meets regularly at the Scout Cabin located in Shawnee Park, Fridays at 7 p. m.

The following boys are re-registered: Robert Friedman, James Phillips, Robert Foley, Elmer Schardt, Ralph Nichols, Robert Hunt, Kenneth Jones, and Kenneth Fisher. More than eight other boys are working on their Tenderfoot tests in preparation to register.

Since President Hoover is a member of a church whose tenets strongly abhor war, it is probable that the chief executive will be brought into the case at every opportunity. Pressure from all sides is generously forecast for not only the president, but every member of congress, that the laws controlling naturalization of aliens be either strengthened or loosened to permit greater freedom of action in admitting certain aliens.

Professor Mackintosh and Nurse Bland have already once experienced the thrill of being accorded American citizenship only to lose it again by the recent Supreme Court vote of five to four, ruling them ineligible. Federal courts of both Connecticut and New York were overruled by the United States Circuit Court of Appeals when it granted citizenship privileges when it granted citizenship to the two Canadians in July.

Now since the highest tribunal in the country has declared against the greatly argued over pair, their status is something approaching a stalemate.

Spokesmen for the Friends Church, of which President Hoover is a member, and many bishops of
